

Disability Awareness - into action

PURPOSE OF THE DAY

The course has been designed to help participants expand their understanding of the barriers that disabled children and their families may experience when using services.

AIM

To introduce participants to a new and challenging view of disablism.

LEARNING OUTCOMES

By the end of the day participants will of

- Learnt what disablism means
- Explored the difference between the social and medical models
- Examined how negative images feed the use of disabling language.
- Identified and began to remove barriers to inclusion.
- Identify ways of implementing their learning into their working practice.
